EXPERIENCE

EmploSoft — *Frontend Developer*

Fleet management software company powers fleets' future on a single platform.

June 2021 - Present Chicago, IL

- Created responsive front-end applications using JavaScript and integration of third-party APIs that increased productivity by 20%
- Worked with product managers to architect new frontend features that increased yearly revenue by 15%
- Optimized app performance and loading speed by implementing lazy loading using React Router
- Converted class components into functional components with react hooks enhancing performance by up to 7% by collaborating cross-functionally with other teams
- Built RESTful APIs in the frontend that served data with Node.js, PostgreSQL which improved runtime for fulfilling queries
- Worked in an Agile-driven environment to effectively maintain project timelines and utilize available resources
- Communicated with internal teams and stakeholders, working to determine solutions for the user experience

General Assembly — *Software Engineer*

August 2020 - April 2021 New York, NY

- Created full-stack applications using React, Javascript, PostgreSQL, and Ruby on Rails
- Worked in teams with git flow to build full-stack applications that include user authorization and full CRUD functionality with React, Express, Mongoose, MongoDB, Node.js, bcrypt, and JWT.
- Planned and built projects according to the agile development cycle from concept to release, both individually and in teams by implementing Git workflow.

EDUCATION

L. N. Gumilyov Eurasian National University - *Bachelor of Science*

2011 - 2015 Astana, Kazakhstan - Psychology
